

Kane W. Tobey

MANUAL QA ENGINEER

Boca Raton, FL · (954) 560-5023 · kanetobey@gmail.com · kanetobey-portfolio.netlify.app · linkedin.com/in/kanetobey · github.com/kanetobey

SUMMARY

Manual QA Engineer with over a year in quality assurance and three years of technical support before it, both at Honorlock. Builds and ships web projects independently, writing the tests and continuous integration behind them.

EXPERIENCE

Honorlock — Boca Raton, FL

Manual QA Engineer

Nov 2024 – Present

- Test web application releases, covering new features and regression before each ship.
- Write and maintain the test instruction sets the regression suite is run against.
- Verify backend data with SQL queries, confirming application state matches what the interface reports.
- File defects with reproduction steps, environment details, and console and network logs, then work with developers through triage to resolution.

Support Specialist I

Aug 2021 – Nov 2024

- Provided remote technical support to end users, troubleshooting browser, hardware, connectivity and access issues.
- Diagnosed recurring platform problems and escalated them to engineering with the detail needed to reproduce them.
- Built the product knowledge and issue-reproduction habits that led to moving into the engineering department.

Rising Tide Car Wash — Margate, FL

Supervisor

Jan 2021 – Aug 2024

- Supervised and coordinated a team including employees on the autism spectrum, adapting communication and training to individual needs.
- Entrusted with cash handling and system entry, and with opening and closing the business.
